Description:

Designed to address the challenges of pleasing both the subject of the portrait and his or her parents, this visual sourcebook offers creative, evocative poses for a successful senior photo session. Through the inclusion of contemporary images from some of the world's most accomplished photographers, shutterbugs will learn which poses best walk the line between the many expectations for the portrait; girls favor sexy, fashion-inspired poses, while guys usually want to look tough, but mothers prefer close views of the face with happy smiles. Grouped according to how much of the subject is included in the frame—from head-and-shoulder shots to full-length portraits—this manual is organized to teach

compositional skills and how to direct the eye to points of focus within an image. An indispensable handbook for beginning, intermediate, or professional photographers, this book provides inspiration along with a plethora of images for igniting a creative spark.

If you're looking for a bit of direction and don't have any training in shooting portraits or senior pictures, this book could save you a lot of wasted time. The written instructions and information is sparse but helpful. A handful of tips allowed us to avoid some common pitfalls that we've seen many other photography hobbyists make. Our photo shoot actually yielded more than 20 good shots to pick from. The photos were great for ideas to the seniors we worked with and helpful to spark the imagination and give new ideas to those who don't shoot senior pictures professionally or often. That said, the book seemed to have a lot of redundant photos, and some were just sleazy (and that's not coming from a prude, I am pretty open minded and even the teens found them more like hooker shots than senior pictures). We paid about \$10 more than the current price on Amazon and were grateful for the help the book provided but also thought about returning it because the value of keeping it did not seem to be there. We did keep it, however, and will probably pass it on to another budding photographer somewhere down the line.
